

CPU Hardware & Software Requirements

MED/FM & Web MED/FM PC Requirements

- ▶ 512 MB memory
- ▶ 10/100 Ethernet adapter
- ▶ Sound card and speakers for on-line education
- ▶ Pentium III or greater processor
- ▶ Internal 45x CD-ROM drive or better
- ▶ Super VGA card with 4 MB memory or better
- ▶ Windows Operating System 2000 or XP Professional (ME and XP Home not supported by CPU)
- ▶ 17 inch or greater Super VGA monitor or LCD capable of 1024 x 768 resolution (19 inch monitor for appointment scheduling)
- ▶ 56K internal or external modem for transcription, ECS, and HDC programs (US Robotics modem preferred; no Win modems; purchase 2 for redundancy)

MED/FM & Web MED/FM Supported Printers

- ▶ Hewlett Packard PCL (Print Control Language) capable laser printers; HP4000 or better with internal network card and two drawers, not including the manual feed (Inkjet printers excluded)
- ▶ Most IBM Laser printers for all printing (except HCFAs)
- ▶ Zebra 2844Z thermal label printer is required for CPU barcode labels; barcode wand optional

Software Requirements

- ▶ MED/FM (55 MB free disk space required)
- ▶ On-line video education (92 MB free disk space)
- ▶ On-line training manual (15—140 MB free disk space required)
- ▶ Client Access Express 5.1 or higher (300 MB free disk space required)
- ▶ WinFax Pro 10.03 for faxing on each PC if performing transcription (57 MB free disk space required)
- ▶ Microsoft Word 2000 or XP if performing transcription (146 MB free disk space required)

Console Requirements for In-house Systems

- ▶ Twinax terminal for configuration and hardware operation of the iSeries

Web MED/FM VPN Tunnel Requirements

- ▶ Cisco PIX 501 (1-50 users)
- ▶ Cisco PIX 506 (50-250 users)

Internet Connectivity Bandwidth Requirements

- ▶ 1 - 25 users: 56K - 128K (SDSL recommended, not ADSL)
- ▶ 26 - 50 users: 256K (Fractional T1)
- ▶ 50 or more users: 1.5 mg (Full T1)
- ▶ Full T1 required if using Document Imaging

MED/FM-Laserfiche Document Management Integration Module Requirements

- ▶ Laserfiche certified scanners
- ▶ MED/FM or Web MED/FM 6.0 or higher
- ▶ Laserfiche Server Version 7
- ▶ Dual output video card if performing side-by-side coding and viewing

* If the outlined requirements are not met, CPU can NOT guarantee results of the document management integration module, and an evaluation is required.

Please note any deviations from these requirements may result in additional support fees.

If you have any questions or would like additional information regarding CPU's hardware and software requirements, please contact our Hardware and Technical Support Team at 800-597-0875 or Help@cpumms.com.
